Action needed

@

Username exposure

Review**3 profiles connected to 1 username across the selected services.**

Reused handles make it easier to connect profiles, comments and older accounts together.

Instagram

TikTok

Old username

#

Companies House record

Routine**1 public Companies House record appears to match.**

This is usually normal business-register exposure, but check whether the address shown is still appropriate.

Public register

Address checked

Data breach indicators

High priority**2 known breaches include an email tied to this identity; passwords exposed.**

Change reused passwords, enable two-factor authentication and review affected services first.
